WINTERSHOEK JOHNNY VIVIER SAFARIS utilizes a fleet of new, well maintained, fully equipped 4X4 hunting and utility vehicles. The vehicles have radio communication to keep in contact with camp and each other. We also have a recovery vehicle with personnel on standby, which will assist in loading animals and transporting the trophies back to our modern skinning facility as soon as possible. This service will in turn save valuable time for more hunting and it places the emphasis on proper trophy care from the field which is our #1 objective.
